## This is how it works

For an upstream journey find your point of departure in the left-hand, vertical column and your destination in the horizontal column (e.g. St. Goar – Bingen). For a downstream journey find the departure point in the horizontal column and the destination in the vertical column (e.g. Bingen – St. Goar). The letter in the box where the columns intersect (in our example G) represents the price zone, which can be checked in the price table on the right to find the applicable fare.

For comparison we have included in the price list the official public fares. The difference represents your commission. Please also take note of our booking information on page 15.

## Surcharges

### Cycle Supplement

For the transportation of bicycles on board a supplement is charged of 3.50 € per cycle per day.

### Fuel Surcharge

Subject to the development of fuel prices we reserve the right to add a surcharge dependent on the distance travelled.

The above tour operator rates are valid for groups of 10 or more persons and are net, including VAT.

They may be used only as an integral part of a package tour.
